FOR IMMEDIATE RELEASE

LABELED'S EAGERLY AWAITED SIXTH EP IS HERE! CD Release Party to Be Held July 25, 2009 at Duggan's Pub

You won't find a better deal on July 25th at this 19+ show. Each paid admission will receive a **free** CD and the band will express their appreciation with an energetic concert featuring all of the new songs, the tunes LABELED fans have come to request at venues across the region and a few excellent up and coming opening acts. But to get a CD, it's very important to attend; after July 25th it will only be available online.

The new five-song EP *Charlie's Ninjas*, available for download on the band's website right now, features four new songs including crowd favorites "Pushing and Shoving" and "Streams" to demonstrate that the group has finally mastered the multi-genre and multi-generational approach they have sought for nearly 10 years. "Treat a Man" reveals the influence on the band that the old storytelling country tunes have had. "Time You Realize" combines hard rock and a chorus beset with tantalizing harmonies. Finally, "Stelliform" is a re-worked version of an earlier favorite that once again takes the listener on a sonic ride, starting with the melodic ballads of the 80's, cruising through the angst ridden modern rock sounds of today and ending with a burst of 70's glam. LABELED fans will instantly recognize the harmonies and bluesy guitar riffs (not to mention the tongue-in-cheek title) on *Charlie's Ninjas*, and the band hopes the music industry will stand and take note that the songs on the album contain three things missing from today's local rock scene: melody, a discernible chorus and HOOKS!

LABELED is a hard rock band from Lincoln, Nebraska, playing live shows in clubs for nearly ten years, since they were teenagers. Their styling influences include blues, classic rock, heavy metal and country. They have shared the stage with nationally recognized acts such as Buckcherry, Hinder, Theory of a Deadman, Alice Cooper, Tesla, Slaughter and Jackyl. The current members are John Wiruth, Gason G. Gerner, Ryan Michael Whitmore and Adam Saltzman.
